5.2. Additional Process Description

FLW	PROCESS STEPS
1	Based on training need assessment report and budget, the HRAD receives and evaluates the training request.
2a	The General Manager/DGM rejects the request if he/s he believes that it is not relevant or if budget is not available for training.
2b	The General Manager accepts the training request if he/she believes that the training is important and budgeted and incorporated in the training needs assessment report.
3	Then detail-training plan will be produced under the direct responsibility of the HRAD.
4	Internal capability is assessed to verify whether the training can be delivered internally or not.
5a	If internal capability exists, the necessary preparation for internal training is conducted. Thus training facilities, training room, exercise book, pen, and trainee(s) and trainer are selected.
5b	If internal capability does not exist, the HRAD& the representatives in association with relevant departments outsource the training. The outsourced training could be a consultant or training institution. Thus, based on cost, quality and delivery time, selection of consultant or training institution will be conducted.
6	Additional description is not required.
7	After internal and external training is conducted, evaluation of the effectiveness of the training is carried out. The respective department managers will be responsible for the assessment of the effectiveness of training.

6. RECORDS

The HRAD Manager is responsible to retain and maintain the following records.

- Training request and its approval
- Training needs analysis report.
- Detail action plan of training
- List of trained personnel
- Training evaluation report
